AGREEMENT NO: 2014-18

Agreement for Technical Services and Assistance Enterprise Zone Application Franklin County, Illinois

This Agreement, entered into this 19TH day of AUGUST, 2014
by and between the County of Franklin, Illinois, hereinafter referred to as the
"Applicant/Applicants" and Moran Economic Development, hereinafter referred to as the
"Consultant".

Whereas, the Applicant has a need for assistance in the completion of an Enterprise
Zone Application "Application"; and,

Whereas, the Consultant is duly experienced in providing such assistance,

Now, Therefore, the Applicant and the Consultant, for the considerations and under the
conditions hereinafter set forth, do mutually agree as follows:

ENTERPRISE ZONE APPLICATION SCOPE OF SERVICES

We propose the following services:

Provide advice, consultation and application to the Illinois Department of Commerce &
Economic Opportunity (DCEO) in matters pertaining to the designation of a new
Enterprise Zone within Franklin County:

I. PHASE ONE

Phase one will consist of the preliminary steps in the Illinois Enterprise Zone
Application process. Much of phase one will rely on mapping and GIS work, and
Moran Economic Development will need to work in conjunction with the Applicant
throughout the process.

Determining Zone Boundary

The Applicant will work with the Consultant to develop the Enterprise Zone
boundary. Through the use of GIS mapping, the Consultant will provide the
Applicant with aerial photography, parcel and land use maps, and additional
resources to aid in the planning of the Enterprise Zone area.

Determining Local Labor Market Area

The "Local Labor Market Area" (LLMA) is used in 8 of the 10 tests in the
application. The LLMA refers to an economically integrated area within which
individuals can reside and find employment within a reasonable distance or can
readily change jobs without changing their place of residence. The LLMA is
designated by the Applicant, and is required to be:

- Contiguous
- Compact
- Entirely within Illinois
- Comprised of whole Census Tracts

- Contain the entire area of the Enterprise Zone
- May take into account communities of interest

The Consultant will examine geographic characteristics, such as neighboring communities, interstates, landmarks, etc. Additionally, the Consultant will analyze many of the conditions found in the application tests on a census tract-by-census tract basis. From this point, the Consultant will be able to provide the Applicant with a suggested LLMA.

II. PHASE TWO

Phase two concerns the application itself, specifically the 10 eligibility criterion "tests" which the application is scored on. This phase relies heavily on data collection, as well as writing the narrative response for each of the tests. The result of Phase Two will determine the eligibility of the enterprise zone area.

Test 1 (50 POINTS)

All or part of the local labor market area has had an annual average unemployment rate of at least 120% of the State's annual average unemployment rate for the most recent calendar year or the most recent fiscal year as reported by the Illinois Department of Employment Security. Databases of IDES data will be created in order provide analysis for the local labor market area;

Test 1 Process

The Consultant will work with the Illinois Department of Employment Security to research unemployment in the LLMA.

Test 2 50 POINTS

Designation will result in the development of substantial employment opportunities by creating or retaining a minimum aggregate of 1,000 full-time equivalent jobs due to an aggregate investment of \$100,000,000 or more, and will help alleviate the effects of poverty and unemployment within the local labor market area;

Test 2 Process

The Consultant will engage in a dialogue with the Applicant about job creation, potential projects resulting from zone designation, and other general goals of the enterprise zone program. The Consultant will research market factors in the LLMA to generate an estimate of the effects of the zone on employment, as well as how the zone will alleviate poverty/unemployment.

Test 3 (40 POINTS)

All or part of the local labor market area has a poverty rate of at least 20% according to the latest federal decennial census, 50% or more of children in the local labor market area participate in the federal free lunch program according to reported statistics from the State Board of Education, or 20% or more households in the local labor market area receive food stamps according to the latest federal decennial census;

Test 3 Process

The Consultant will determine the poverty rate of the LLMA by utilizing data from the American Community Survey. The number and percentage of children in the LLMA that are eligible for free/reduced price school lunches will be calculated using the USDA's income eligibility criteria. Finally, the number and percentage of households in the LLMA that receive SNAP benefits will be determined.

Test 4 (30 POINTS)

An abandoned coal mine or a brownfield (as defined in Section 58.2 of the Environmental Protection Act) is located in the proposed zone area, or all or a portion of the proposed zone was declared a federal disaster area in the 3 years preceding the date of application;

Test 4 Process

The Consultant will analyze coal mine data from IDNR, and will map out any abandoned mines in the proposed zone area. The Consultant will then determine if a brownfield is present in the proposed zone area by using IEPA resources. Historical FEMA data will be analyzed to determine if any portion of the proposed zone is or was declared a federal disaster area.

Test 5 (50 POINTS)

The local labor market area contains a presence of large employers that have downsized over the years, the labor market area has experienced plant closures in the 5 years prior to the date of application affecting more than 50 workers, or the local labor market area has experienced State or federal facility closures in the 5 years prior to the date of application affecting more than 50 workers;

Test 5 Process

Historical WARN data from DCEO for the past 10 years will be researched to determine if any large employers have left the LLMA. The CGFA state facilities closures will be researched for the past 5 years as well.

Test 6 (40 POINTS)

Based on data from Multiple Listing Service information or other suitable sources, the local labor market area contains a high floor vacancy rate of industrial or commercial properties, vacant or demolished commercial and industrial structures are prevalent in the local labor market area, or industrial structures in the local labor market area are not used because of age, deterioration, relocation of the former occupants, or cessation of operation;

Test 6 Process

The Consultant will use a variety of data to research vacancy rates in the LLMA, including MLS information, LOIS databases, and local realtor data. Field investigations will be used to determine the degree of deterioration.

Test 7 (30 POINTS)

The Applicant demonstrates a substantial plan for using the designation to improve the State and local government tax base, including income, sales, and property taxes;

Test 7 Process

The Consultant will work with the Applicant to create a draft plan that will demonstrate how the potential zone will improve the state and local government tax bases. Projections of state and local sales taxes, property tax, and state income tax will be used to provide an estimate of the zone's impact.

Test 8 (50 POINTS)

Significant public infrastructure is present in the local labor market area in addition to a plan for infrastructure development and improvement;

Test 8 Process

The Applicant will be asked to provide an inventory of all "public infrastructure" (as defined by the Application) in its respective portion of the LLMA. The Consultant will refer to utility companies and other officials to provide an inventory of the other infrastructure in the LLMA. The Applicant will be asked to provide a three-year public infrastructure improvement and development plan (to include capital improvement projects, financing of such improvements, and justification for such improvements). Based on the above information, the Consultant will prepare a public infrastructure improvement and development plan, which will be reviewed with the Applicant.

Test 9 (40 POINTS)

High schools or community colleges located within the local labor market area are engaged in ACT Work Keys, Manufacturing Skills Standard Certification, or other industry-based credentials that prepare students for careers;

Test 9 Process

The Consultant will identify all high schools and community colleges within the LLMA. In each case, the Consultant will research the institution's participation in career skills programs (ACT Work Keys, Manufacturing Skills Standard Certification, etc.).

Test 10 (40 POINTS)

The change in equalized assessed valuation (EAV) of industrial and/or commercial properties in the 5 years prior to the date of application is equal to or less than 50% of the State average change in equalized assessed valuation for industrial and/or commercial properties, as applicable, for the same period of time.

Test 10 Process

The Consultant will research equalized assessed values (EAVs) for commercial and industrial properties in the LLMA, dating back five years. The annual changes in the LLMA commercial/industrial EAV will then be compared to the state's annual change for the same time period.

III. PHASE THREE

The Consultant will present the Applicant with a completed package of materials developed to address each of the ten Application Tests. This package will

additionally include any maps, tables, charts, or narrative that will improve the Application as a whole. The Consultant will provide the Applicant with a draft Application for review, where any changes will be able to be made before a final Application is submitted to DCEO.

The Application will be approved or denied by a majority determination of the Enterprise Zone Board.

COMPENSATION

The total proposed fee for the above work will be **\$36,900**, plus actual reimbursable expenses not to exceed **\$5,000**. Reimbursable expenses shall consist of actual costs incurred by Moran Economic Development for printing, travel, photographic work, production, delivery charges, long distance telephone charges and any other similar expenses required to provide the above Scope of Services. Such expenses shall be billed to the County at their direct and actual cost to Moran Economic Development.

Qualification Analysis of Enterprise Zone Area..... \$20,400

Upon the completion of Application for Designation of Enterprise Zone \$16,500

Payment of current charges and reimbursable expenses shall be made to the Consultant within 30 days of the receipt of the invoice concerning these items. Unpaid invoices shall accrue interest of 1.5% per month until paid.

IN WITNESS WHEREOF, the parties have caused this Contract to be executed this 19TH day of AUGUST, 2014.
